Professional summary

Dynamic Product Manager with over 8 years of experience, including 5+ years focused on consumer-facing, social, and eCommerce products. Adept at launching and scaling innovative products, with a track record of driving growth and profitability. Skilled in live product operations, cross-functional collaboration, and community engagement. Proficient in adapting to fast-paced startup environments and agile methodologies. Strong advocate for data-driven decisions, community feedback, and user-centric design to enhance the marketplace experience. Experienced in working in a fully remote and globally distributed team, ensuring efficient collaboration across time zones.

Employment history

JUL, 2022 - JUL, 2023

SAN FRANCISCO, CA (REMOTE)

Growth Product Manager (Freemium), Buffer

- Led a five-member EPD team, growing Buffer's renowned freemium plan to over 150k monthly active users, experimenting and optimizing all upgrade and payment flows to grow the user base.
- Headed onboarding experimentation and feature development efforts that lifted user activation by 11% and contributed to a 5% increase in monthly active users.
- Introduced VAT collection at checkout, which saved the company \$2M in back-dated VAT remittances without negatively impacting conversion rates.
- Conceived and developed a self-serve pricing plan migration hub that shifted 16% of our \$1.5M MRR to new pricing plans, providing a data-driven roadmap to increased profitability.
- Utilized direct product triggers and third-party tools for all in-app and product messaging, enabling our internal non-technical product marketers to implement and optimize customer messages.

JAN, 2015 - DEC, 2022

TORONTO, ON

Product Manager & Founder, Quickstaff

- Founded and scaled a revenue-positive B2B SaaS bootstrapped staff scheduling two-sided marketplace company to profitability before a successful sale & exit.
- Spearheaded the development of end-to-end payment solutions, including checkouts, billing plans, and invoicing, managing a modest \$30k annual revenue before a successful exit.
- Implemented a robust payment, billing, and invoicing UX, achieving a 4.7-star rating on Captera and a 93% recommendation rate.
- Led a cross-functional team of four developers, maintaining a rapid release schedule aligned with business goals.
- Navigated Quickstaff (an event staffing business) through the COVID-19 pandemic, maintaining operations and preventing business loss.

JAN, 2013 - MAR, 2019

TORONTO, ON

Product Manager, The Overflow

- Pioneered the development of the first genre-specific music streaming service, growing the user base to 180,000 without paid marketing.
- Managed the end-to-end customer payment process for both mobile and web, streamlining user checkout experiences and contributing to revenue growth.
- Created an artist dashboard for real-time revenue and streaming data as the aggregator reported, empowering artists and their teams with actionable insights.
- Designed an efficient front-end interface and workflow for the internal music catalog management system, reducing music catalog management time by over 80%.
- Identify and analyze key performance indicators (KPIs) to measure the success and growth of the freemium user base and use these insights to drive product and marketing strategies.

Employment history

DEC, 2019 - MAY, 2023
ATLANTA, GA (REMOTE)

Digital Manager, Maverick City Music

- Established & hosted online writing camps attended by hundreds of songwriters, with masterclasses by Grammy-award-winning artists and songwriters.
- Created their Shopify e-commerce store, generating hundreds of thousands of dollars in revenue.
- Social followers increased from around 10k YouTube subscribers to over 2 million.
- Designed and ran the main marketing website, Google Workspace, and all online properties.
- Designed and developed the Maverick City Music Publishing website to enable complete song catalog access.

JAN, 2010 - JUL, 2022
TORONTO, ON

Product Manager (Freelancer), VCG Group

- Architected two commerce portals, one for B2B dealerships and another for B2C consumers, facilitating extended warranty purchases and generating over \$5 million in annual revenue.
- Designed the product strategy for the commerce portals, focusing on self-serve capabilities and real-time reporting to enable smooth customer transactions.
- Product owner of a B2C consumer-facing, self-serve portal capable of thousands of daily transactions, warranty quotes, warranty policies, and claims management
- Collaborated with technical and non-technical stakeholders to integrate Salesforce CRM data, aligning disparate data sources for a unified business view.
